

Task 1:

```
class Task1{  
    public static void main(String[] args) {  
        SinglyLinkedList<Object> myList = new SinglyLinkedList<>();  
        myList.addFirst(5);  
        myList.addLast(7);  
        myList.addLast(4);  
        myList.addLast("Hello");  
        myList.addLast("World");  
  
        System.out.println("Mixed List: " + myList);  
    }  
}
```

Output: Mixed List: (5, 7, 4, Hello, World)
